

KRISHNA BAGUL

Aspiring Data Scientist

krishnabagul06@gmail.com | 8962033067 | <https://www.linkedin.com/in/krishnabagul/> | <https://github.com/krishnabagul06> | <https://krishnabagul.netlify.app/>

Profile

Computer Science graduate with a passion for turning data into insights. Solid grounding in statistics, machine learning, and data visualization through coursework, internships, and self-driven projects. Eager to apply analytical skills and fresh perspectives to real-world challenges in a dynamic data science role.

Education

B.Tech in Computer Science & Technology

SAGE University, Indore | Oct 2023 – Jun 2027

CGPA: 8.5/10

Technical Skills

- **Programming:** Python (Pandas, NumPy, Scikit-Learn), SQL
 - **Machine Learning:** Regression, Classification, Clustering, Decision Trees, Random Forests, NLP basics
 - **Deep Learning Frameworks:** TensorFlow, Keras
 - **Visualization & BI:** Matplotlib, Seaborn
 - **Tools & Platforms:** Git, Github, Docker, Jupyter Notebooks, Google Colab, VS code.
-

Internship Experience

Python Programming Intern | CodSoft

01 September 2025 – 30 September 2025 (*Virtual Internship*)

- Developed Python applications and gained hands-on experience in data processing and problem-solving.
 - Worked with Python concepts including functions, OOP, file handling, and data structures.
 - Built projects demonstrating programming logic, analytical thinking, and software development skills.
 - Enhanced skills relevant to Data Science and Machine Learning development.
 - Successfully completed internship tasks and projects with positive performance feedback.
-

Leadership Experience

Community Lead | GDG on Campus, Sage University Indore

2025 – Present

- Led community engagement and organized technical events, workshops, and coding sessions.
- Coordinated with teams to increase student participation in technology initiatives.
- Managed event promotions, outreach activities, and community communications.
- Developed leadership, teamwork, and event management skills.

Academic Projects

1. MedBridge – AI-Powered Smart Pharmacy & Healthcare Platform

- Developed a platform that helps users find nearby pharmacies with required medicines through prescription upload and medicine search.
- Implemented a real-time notification system reaching 100% of registered pharmacies within the service area. Designed an AI-based symptom assessment system for preliminary health analysis.
- Proposed emergency medicine delivery integration through third-party logistics services.
- **Technologies:** Python, Machine Learning, SQL, HTML, CSS, JavaScript.

2. Defect Detection in Manufacturing

- Developed a Deep Learning model for automated defect detection in manufacturing products using image data.
- Trained a CNN-based classification model achieving 95%+ accuracy in defect identification.
- Applied image preprocessing and feature extraction techniques to improve detection performance.
- **Technologies:** Python, Deep Learning, CNN, TensorFlow, OpenCV.

3. Customer Segmentation Project

- Developed a customer segmentation model using **K-Means Clustering** to group customers based on purchasing behavior and demographics.
- Conducted data preprocessing, EDA, and visualization to identify meaningful customer segments.
- Generated actionable insights for targeted marketing and customer retention strategies.
- **Technologies:** Python, Machine Learning, Pandas, NumPy, Scikit-learn, Matplotlib.

4. Traffic Sign Detection & Recognition

- Developed a CNN-based Deep Learning model for automatic traffic sign detection and classification.

- Achieved 90%+ accuracy in recognizing 40+ traffic sign categories from image datasets.
- Applied image preprocessing and computer vision techniques to improve recognition performance.
- **Technologies:** Python, Deep Learning, CNN, TensorFlow, OpenCV, NumPy.

5. Chest X-Ray Disease Detection

- Developed a CNN-based Deep Learning model for automated chest disease detection from X-ray images.
- Achieved 85%+ accuracy in classifying normal and abnormal chest X-rays.
- Applied image preprocessing and computer vision techniques to enhance diagnostic performance.
- **Technologies:** Python, Deep Learning, CNN, TensorFlow, OpenCV, NumPy.

6. Sentiment Analysis Project

- Developed an NLP-based sentiment analysis model to classify text as Positive, Negative, or Neutral.
- Applied text preprocessing, feature extraction, and Machine Learning techniques for sentiment classification.
- Achieved 90%+ accuracy in analyzing customer reviews and feedback.
- **Technologies:** Python, NLP, Machine Learning, Scikit-learn, NLTK, Pandas.

7. Customer Churn Prediction

- Developed a Machine Learning model to predict customer churn and identify customers at risk of leaving a business.
- Performed data cleaning, feature engineering, and Exploratory Data Analysis (EDA) on customer behavior and subscription data.
- Trained and evaluated classification models to predict churn with high accuracy.
- Achieved **85%+ prediction accuracy** in identifying potential customer churn. *(Replace with your actual accuracy if different.)*
- Generated data-driven insights to support customer retention strategies and reduce customer attrition.
- **Technologies:** Python, Machine Learning, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn.

Certifications

- AI & Data Science Certification - DataFlair
- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- Introduction to Data Science - Infosys Springboard
- Introduction to Artificial Intelligence - Infosys Springboard
- Introduction to Deep Learning - Infosys Springboard

- Introduction to Natural Language Processing - Infosys Springboard
 - Python Programming - DataFlair
-

Achievements & Extracurriculars

- Secured 3rd Position in Tech First Quiz organized by Sunstone.
- Participated in Smart India Hackathon (Internal) 2025, presenting an innovative technology solution.
- Participated in MSME Idea Hackathon 5.0 with an innovative startup idea.
- Participated in SKITECH INNOTHON 3.0, a 36-hour National Level Hackathon.
- Managed and coordinated an industry visit to Yash Technologies for SAGE University students, demonstrating leadership, planning, and execution skills.
- Team Lead – Content & Community, GDG on Campus, Sage University Indore.
